

Vulnerability Management & Patch Management as a Service

Achieve your GRC goals through proactive risk management with The Birdling's Patch Management-as-a-service.

The Birdling assists you to not just keep up but also preemptively avert threats of the evolving landscape through seamless configuration, scanning detection and remediation of security risks and vulnerabilities across your organization's posture

I Vulnerability Management, Detection, and Remediation

24x7 fully managed turnkey VM and PM service

- ✓ Built-in Vulnerability Database (160000+ checks)
- ✓ Real-time 24x7 Vulnerability Scanning
- ✓ Super quick Vulnerability Scanning and Detection (<5mins)
- ✓ Detected Vulnerability Validation and Prioritization
- ✓ Patch deployment for all the major OSes and 3rd party applications (300+)

- ✓ Complete adherence with Industry Benchmarks and Security Standards
- ✓ Dedicated team for vulnerability scanning and patch remediation
- ✓ Easy quick rollback for error-prone software patches
- ✓ Standardized and customized vulnerability reporting

I Why The Birdling?

- ✓ NDPR Compliant
- ✓ Monitoring 3k+ assets globally
- ✓ SOC 2 Type II Certified Data Centres(AWS) in 8+ countries
- ✓ 100% Vendor Agnostic Services
- ✓ Partnerbase expands to 14+ countries
- ✓ Zero charges for on boarding & deployment
- ✓ Compliance-first & consultative approach

01

Vulnerability Scanning

The Birdling's vulnerability scanning identifies cyber risks and vulnerabilities across infrastructure.

02

Vulnerability Assessment

Seamless categorization of vulnerabilities as per severity and potential of attack

03

Pilot Patching

Weekly initial patching on a group of pilot devices for undistruptive process

04

Validation

Validation of all the patches applied to the pilot devices. Comprehensive reporting of the whole process for enhanced visibility and improvement of success rate.

05

Production Patching

Devices in the production phase are taken up next after completion of pilot phase patching where same process is followed.

I Final Assessment & Report

Once the production phase of patching ends, we schedule the periodic (monthly) patching process at the agreed day and time with the customer. Finally, we offer detailed final assessment and patching reports.

I Tenable nessus ad-hoc VM scans (Network infrastructure & IP ranges)

- ✓ Public/External Scans
- ✓ Internal Vulnerability Scans
- ✓ Web application VM Scans
- ✓ Discover unknown assets
- ✓ Proactively identify & prioritize vulnerabilities
- ✓ Scan Risk Scores and Prioritization
- ✓ Custom Scan Result Reports
- ✓ Vulnerability Remediation Recommendations
- ✓ Diverse array of sensors
- ✓ Credentialed/non-credentialed Scans

I The Benefits

Breach Protection

- ✓ Saves time through quick risk analysis.
- ✓ Continuous monitoring of evolving attack surface.
- ✓ Reduces the possibility of false positives to zero.

24x7 Access to SOC and VM/PM Engineers

- ✓ Complete access to multi-tenant VM and PM
- ✓ SOC Ticketing Portal access

I What Clients Get:

- ✓ Fully Managed Turnkey VM & PM service
- ✓ 24x7 Continuous Vulnerability Management
- ✓ 24x7 Steady State management of the VM and PM Products
- ✓ Industry leading Service Level Agreements
- ✓ Full Multi-tenant environment
- ✓ Custom vulnerability and patch reports
- ✓ Recurring weekly and monthly SOC governance calls SOC Ticketing

| About Us

The Birdling is a trailblazing cybersecurity organization with a mission to simplify cybersecurity for our partners across industries through our technologically driven human-led open architecture platform ARGOS. We seek to cater to some of the industry's most immediate challenges such as siloed cybersecurity, increasing cost of cybersecurity solutions, changing regulatory environment, and increasing reliance on multiple vendors for multiple aspects of cybersecurity and compliance. With ARGOS, we are able to assist our network of partners and customers through effective augmentation of cybersecurity posture as per use cases, extending visibility, compliance management, and round-the-clock support for incident response.

Through a team of threat-striking experts, we have made our presence across MEA.

| In league with the finest, Globally trusted.
